

**Nursing and Midwifery Council  
Investigating Committee**

**Interim Order Review Meeting  
Wednesday, 24 July 2024**

Virtual Meeting

<b>Name of Registrant:</b>	<b>Amanda Jayne Ramsden</b>
<b>NMC PIN</b>	99D0629E
<b>Part(s) of the register:</b>	Registered Nurse – Adult Nurse (26 May 2005)
<b>Relevant Location:</b>	Doncaster
<b>Panel members:</b>	Michael McCulley (Chair, lay member) Helen Hughes (Registrant member) Niall McDermott (Lay member)
<b>Hearings Coordinator:</b>	Sharmilla Nanan
<b>Interim order to be reviewed:</b>	Interim suspension order (18 months)
<b>Outcome of review:</b>	<b>Interim suspension order confirmed</b>

## **Decision and reasons on interim order**

The panel decided to confirm the current interim suspension order.

Unless Ms Ramsden's case has already been concluded or there has been a material change of circumstances, a panel will review the interim suspension order at a review meeting within the next six months and every six months thereafter. A panel will be invited by the Nursing and Midwifery Council (NMC) to confirm the interim suspension order at this meeting and Ms Ramsden will be notified of the panel's decision in writing following that meeting.

Where there has been a material change of circumstances that might mean that the order should be revoked or replaced, or there has been a request for an early review, a panel will review the interim order at a hearing which Ms Ramsden will be invited to attend in person, send a representative on Ms Ramsden's behalf or submit written representations for the panel to consider. At any such review hearing the panel may revoke the interim order, it may confirm the interim suspension order or it may replace it with an interim conditions of practice order.

The NMC Case Examiners are yet to decide whether there is a case to answer in relation to the allegations made against Ms Ramsden. The NMC will write to Ms Ramsden when the case is ready for the next stage of the fitness to practise process.

This will be confirmed to Ms Ramsden in writing.

That concludes this determination.
