## Decision and reasons on interim order

The panel decided to confirm the current interim conditions of practice order.

The panel has determined that the following conditions are proportionate and appropriate:

*'For the purposes of these conditions, 'employment' and 'work' mean any paid or unpaid post in a nursing, midwifery or nursing associate role. Also, 'course of study' and 'course' mean any course of educational study connected to nursing, midwifery or nursing associates.'*

1. You must not practise as an advanced nurse practitioner or nurse prescriber.
2. You must ensure that you are supervised by a registered nurse of band 6 or above any time you are working. Your supervision must consist of:
  - direct supervision at any time you are administering medication
  - working at all times on the same shift as, but not always directly observed by, a registered nurse of band 6 or above.
3. You must keep the NMC informed about anywhere you are working by:
  - a. Telling your case officer within seven days of accepting or leaving any employment.
  - b. Giving your case officer your employer's contact details
4. You must keep the NMC informed about anywhere you are studying by:
  - a. Telling your case officer within seven days of accepting any course of study.
  - b. Giving your case officer the name and contact details of the organisation offering that course of study.

5. You must immediately give a copy of these conditions to:
  - a. Any organisation or person you work for.
  - b. Any agency you apply to or are registered with for work.
  - c. Any employers you apply to for work (at the time of application).
  - d. Any establishment you apply to (at the time of application), or with which you are already enrolled, for a course of study.
  - e. Any current or prospective patients or clients you intend to see or care for when you are working independently.
  
6. You must tell your case officer, within seven days of your becoming aware of:
  - Any clinical incident you are involved in.
  - Any investigation started against you.
  - Any disciplinary proceedings taken against you.
  
7. You will send the NMC a report seven days in advance of the next NMC hearing or meeting from either your line manager or supervisor.
  
8. You must immediately give a copy of these conditions to:
  - a) Any organisation or person you work for.
  - b) Any agency you apply to or are registered with for work.
  - c) Any employers you apply to for work (at the time of application).
  - d) Any establishment you apply to (at the time of application), or with which you are already enrolled, for a course of study.
  - e) Any current or prospective patients or clients you intend to see or care for on a private basis when you are working in a self-employed capacity

9. You must tell your case officer, within seven days of your becoming aware of:
  - a) Any clinical incident you are involved in.
  - b) Any investigation started against you.
  - c) Any disciplinary proceedings taken against you.

Unless your case has already been concluded, this interim order must be reviewed before the end of the next six months and every six months thereafter. Additionally, you or the Nursing and Midwifery Council (NMC) may ask for the interim order to be reviewed if any new evidence becomes available that may be relevant to the interim order.

At any review, the reviewing panel may revoke the interim order or any condition of it, it may confirm the interim conditions of practice order, or vary any condition of it, or it may replace the interim conditions of practice order with an interim suspension order.

In certain circumstances, it may be possible for the interim conditions of practice order to be reviewed by a reviewing panel at an administrative meeting. Your case officer will write to you about this in due course.

A panel of the Fitness to Practise Committee has yet to conclude its hearing with regard to the allegations made against you. The NMC will keep you informed of developments in relation to that issue.

This will be confirmed to you in writing.

That concludes this determination.
