#### **Section two**

#### **Summary of review and findings**

Queen Margaret University (QMU) is an established approved education institution (AEI). The QMU division of nursing and paramedic science present a modification to the Nursing and Midwifery Council (NMC) approved pre-registration adult nursing programme. The programme was approved by the NMC on the 3 September 2020. The approved programme includes a full-time four-year Masters in Nursing (MN) at Scottish credit and qualifications framework (SCQF) level 11 and a Bachelor of Science with Honours (BSc (Hons)) nursing at SCQF 10. The BSc (Hons) route is delivered full- and part-time. All routes are in the field of adult nursing. There's a fall back exit award in the MN route, which is a BSc (Hons) nursing with NMC registration as an adult nurse at SCQF level 10.

The current programme entry point is to the MN nursing route; the proposed modification is to introduce an entry point for the BSc (Hons) nursing route with a new BSc nursing without honours fall back exit award at SCQF level nine for students who successfully achieve all NMC requirements and programme outcomes. The new route title is BSc nursing (fall back award).

There's evidence that QMU working in partnership with practice learning partners (PLPs), students and people who use services and carers (PUSCs) have undertaken a review of the current programme. Feedback from all stakeholders informs the proposed modification.

The review of the programme is informed by changing workforce requirements and to meet the needs of the local population. QMU consider student feedback about their experiences of the programme. There's evidence that consultation with all stakeholders provides the opportunity for a review of the programme content, modules, award titles, fall back exit awards, learning outcomes and assessments. PLPs confirm that the proposed modification provides flexibility for applications to either the MN or a BSc (Hons) route with the opportunity at the end of part two of the programme to transfer to either the MN or BSc (Hons) routes. Transfer is dependent on academic achievement and/or individual circumstances. Transfer to the MN route requires achievement of an overall average academic mark of 60 percent and successful completion of a 40-credit SCQF level nine independent study for developing professional practice module that supports transition to the MN. The approved fall back exit award for the MN is a BSc (Hons) nursing. Written placement agreements are in place and confirm PLP support for the programme modification.

There's evidence of student consultation and agreement with the transfer of existing students to the modified routes. There's documented evidence in place that details the transfer processes.

The programme continues to meet the NMC requirement of 4,600 hours and there's an equal balance of 50 percent theory and 50 percent practice learning. QMU confirm that there are no plans to include any simulated practice learning hours. There's no change to planned student numbers.

The programme is mapped against the Standards for pre-registration nursing programmes (SPNP) (NMC 2018, updated 2023) and the Future nurse: Standards of proficiency for registered nurses (FN:SPRN) (NMC, 2018).

The programme is delivered at the QMU Musselburgh campus.

There's evidence of policy and processes in place that confirm QMU monitor student equality, diversity and inclusion (EDI), including attainment by disability, ethnicity and gender. QMU and the programme team have a clear plan in place to ensure EDI monitoring at programme level. There's evidence that the review of the curriculum has informed further development of decolonised learning materials.

There's evidence that QMU and PLPs work collaboratively, to ensure the quality and safety of practice learning environments. They work in partnership to address, action plan and monitor any practice learning concerns and risks identified by system regulators including Healthcare Improvement Scotland (HIS) reporting. There are effective processes in place to monitor practice learning governance, capacity and adherence to the Standards for student supervision and assessment (SSSA) (NMC 2018, updated 2023). The NHS Education for Scotland (NES) quality management of practice learning environments (QMPLE) process that's used by all PLPs and AEIs in Scotland is clearly detailed in programme documentation. QMPLE confirms that QMU and PLPs have access to data related to the ongoing quality of practice learning environments.

There's evidence that students, practice assessors and practice supervisors know how to raise practice learning concerns; the processes are clearly detailed in programme documentation. Supernumerary status in practice learning environments is confirmed. Practice learning is assessed in the Scottish practice assessment document (PAD) that's contextualised to the QMU programme.

The Standards framework for nursing and midwifery education (SFNME) (NMC, 2018 updated 2023) and the SSSA are met at programme level.

The modification visit is undertaken face to face.

The modification is recommended for approval subject to one university condition. Two university recommendations are made.

Updated 22 May 2024:

QMU confirm the university condition is met.	
The programme is recommended to the NMC for approval.	

Recommended outcome of the approval panel	
Recommended outcome to the NMC:	Programme is recommended to the NMC for approval
	Programme is recommended for approval subject to specific conditions being met
	Recommended to refuse approval of the programme
	Effective partnership working: collaboration, culture, communication and resources:
	None identified.
	Selection, admission and progression:
	None identified.
	Practice learning:
	None identified.
Conditions:	Assessment, fitness for practice and award:
	None identified.
	Education governance: management and quality assurance:
	Condition one: Update the documentation including student-facing documentation to ensure accuracy, completeness and consistency to address matters highlighted in the pre-visit feedback and covered in discussion. (University condition)
Date condition(s) to be met:	22 May 2024

Recommendations to enhance the programme delivery:	Recommendation one: To update the documentation to be more explicit about aspects of good practice identified in discussion. (University recommendation)	
	Recommendation two: To explore both within the division of nursing and paramedic science and wider context how to further diversify the stakeholder group, including PUSCs. (University recommendation)	
Focused areas for future monitoring:	The collection of EDI and attainment data at programme level.	

Programme is recommended for approval subject to specific conditions being met		
Commentary post review of evidence against conditions:		
A response to the university condition signed by the chair of the conjoint approval panel confirms the university condition is met. Condition one is met.		
AEI Observations	Observations have been made by the education institution YES NO	
Summary of observations made, if applicable		
Final recommendation made to NMC:	Programme is recommended to the NMC for approval	
	Recommended to refuse approval of the programme	
Date condition(s) met:	22 May 2024	

#### **Section three**

# Please refer to NMC standards reference points: Standards for pre-registration nursing programmes (NMC 2018, updated 2023) Future nurse: Standards of proficiency for registered nurses (NMC, 2018) Standards framework for nursing and midwifery education (NMC 2018, updated 2023) Standards for student supervision and assessment (NMC 2018, updated 2023)

#### **NMC Programme standards**

<u>The Code: Professional standards of practice and behaviour for nurses, midwives</u> <u>and nursing associates</u> (NMC, 2015 updated 2018)

Quality assurance framework for nursing, midwifery and nursing associate education (NMC, 2020)

QA Handbook (NMC, 2022)

#### **Partnerships**

The AEI works in partnership with their practice learning partners, people who use services, students and all other stakeholders.

#### Please refer to the following NMC standards reference points for this section:

<u>Standards framework for nursing and midwifery education</u> (NMC 2018, updated 2023)

#### Standard 1: The learning culture:

- R1.12 ensure programmes are designed, developed, delivered, evaluated and coproduced with people who use services and other stakeholders
- R1.13 work with service providers to demonstrate and promote inter-professional learning and working

#### Standard 2: Educational governance and quality:

- S2.2 all learning environments optimise safety and quality taking account of the diverse needs of, and working in partnership with, people who use services, students and all other stakeholders
- R2.4 comply with NMC <u>Standards for student supervision and assessment</u>
- R2.5 adopt a partnership approach with shared responsibility for theory and practice supervision, learning and assessment, including clear lines of communication and accountability for the development, delivery, quality assurance and evaluation of their programmes
- R2.6 ensure that recruitment and selection of students is open, fair and transparent and includes measures to understand and address underrepresentation
- R2.7 ensure that people who use services and representatives from relevant stakeholder groups are engaged in partnership in student recruitment and selection

#### **Standard 3: Student empowerment:**

R3.3 have opportunities throughout their programme to work with and learn from a range of people in a variety of practice placements, preparing them to provide care to people with diverse needs

- R3.16 have opportunities throughout their programme to collaborate and learn with and from other professionals, to learn with and from peers, and to develop supervision and leadership skills
- R3.17 receive constructive feedback throughout the programme from stakeholders with experience of the programme to promote and encourage reflective learning
- R3.18 have opportunities throughout their programme to give feedback on the quality of all aspects of their support and supervision in both theory and practice.

#### Standard 4: Educators and assessors:

- R4.7 liaise and collaborate with colleagues and partner organisations in their approach to supervision and assessment
- R4.9 receive and act upon constructive feedback from students and the people they engage with to enhance the effectiveness of their teaching, supervision and assessment
- R4.10 share effective practice and learn from others

#### Standard 5: Curricula and assessment:

- R5.4 curricula are developed and evaluated by suitably experienced and qualified educators and practitioners who are accountable for ensuring that the curriculum incorporates relevant programme outcomes
- R5.5 curricula are co-produced with stakeholders who have experience relevant to the programme
- R5.14 a range of people including people who use services contribute to student assessment

Standards for student supervision and assessment (NMC 2018, updated 2023)

#### Standard 1: Organisation of practice learning:

- R1.4 there are suitable systems, processes, resources and individuals in place to ensure safe and effective coordination of learning within practice learning environments
- R1.7 students are empowered to be proactive and to take responsibility for their learning
- R1.8 students have opportunities to learn from a range of relevant people in practice learning environments, including users of services, registered and non-registered individuals, and other students as appropriate

#### **Standard 2: Expectations of practice supervisors:**

R2.2 there is support and oversight of practice supervision to ensure safe and effective learning

#### Standard 3: Practice supervisors: role and responsibilities:

R3.3 support and supervise students, providing feedback on their progress towards, and achievement of, proficiencies and skills

## Standard 4: Practice supervisors: contribution to assessment and progression:

R4.3 have sufficient opportunities to engage with practice assessors and academic assessors to share relevant observations on the conduct, proficiency and achievement of the students they're supervising

#### **Standard 7: Practice assessors: responsibilities:**

R7.9 communication and collaboration between practice and academic assessors is scheduled for relevant points in programme structure and student progression

#### Standard 9: Academic assessors: responsibilities:

R9.6 communication and collaboration between academic and practice assessors is scheduled for relevant points in programme structure and student progression

#### Findings against the standard and requirements

Provide an <u>evaluative summary</u> about the effectiveness of the partnerships between the AEI and their practice learning partners, people who use services, students and any other stakeholders.

Documentary evidence and the visit confirm that there's effective partnership working between QMU and PLPs at both strategic and operational levels. PLPs confirm that they've contributed to the development of the proposed modification. They tell us that the inclusion of the MN route remains important to ensure the development of NMC registrant adult nurses who can meet the needs of the local population. PLPs tell us that the proposal to allow an entry point to the BSc (Hons) increases the opportunities for people who are considering studying a nursing degree at academic level 10. Students tell us that they support this change that means it can remove the uncertainty for applicants who may feel they don't have the academic ability to undertake academic level 11 study. They tell us that this can be an issue and can mean people won't apply to study the programme at QMU. They tell us that they feel that the flexibility offered by the modification will enhance student success.

There's evidence that QMU works collaboratively with other AEIs across Scotland as part of NES. This approach ensures that there's sharing of information and data using QMPLE to inform assurance of the quality and safety of practice learning experiences and the implementation of the SSSA. Documentary evidence confirms and PLPs tell us that there's a collaborative approach that ensures practice learning is reviewed and monitored using QMPLE and that any adverse reporting by HIS is managed in partnership with QMU. Senior PLPs, the senior QMU team and the programme team tell us about the processes that are in place that require

them to work in partnership to address any student practice learning concerns. Documentary evidence confirms that there are processes in place to assure the application of the SSSA in practice learning environments. Student, practice assessor and practice supervisor facing documentation provide assurance that the roles and responsibilities for practice learning are clear.

Documentary evidence confirms and the programme team and PLPs tell us that student views inform the modification. Students tell us that their feedback has informed the proposed modification. They tell us about the opportunities to evaluate theory and practice learning across the programme and that they're listened to by the programme team and PLPs. They confirm that the partnership working approach between the programme team and PLPs is effective and supports their learning. There are processes in place to listen to and address student concerns. Students, practice assessors and practice supervisors tell us that they know how to raise concerns and how reasonable adjustments are used to support student learning. Students tell us that the programme team provide excellent support, guidance and actively listen to and act on their feedback, answer questions and support them if they raise any concerns.

Documentary evidence confirms that QMU has a PUSC strategy in place. PUSCs tell us that they're actively involved in the programme and that the programme team listen to their views about the proposed programme modification. They describe examples of their involvement across the programme and their contribution to the recruitment and selection processes, delivery of teaching, assessment and evaluation. They tell us that they feel listened to and valued by the programme team, students and PLPs. Students tell us they appreciate and value the contribution of PUSCs across the programme.

#### Student journey through the programme

#### Standard 1: Selection, admission and progression

Approved education institutions, together with practice learning partners, must:

- R1.1 Confirm on entry to the programme that students:
- R1.1.1 meet the entry criteria for the programme as set out by the AEI and are suitable for their intended field of nursing practice: adult, mental health, learning disabilities and children's nursing
- R1.1.2 demonstrate values in accordance with the Code
- R1.1.3 have capability to learn behaviours in accordance with the Code
- R1.1.4 have capability to develop numeracy skills required to meet programme outcomes
- R1.1.5 can demonstrate proficiency in English language
- R1.1.6 have capability in literacy to meet programme outcomes
- R1.1.7 have capability for digital and technological literacy to meet programme outcomes.
- R1.2 ensure students' health and character are sufficient to enable safe and effective practice on entering the programme, throughout the programme and when submitting the supporting declaration of health and character in line with the NMC's health and character decision-making guidance. This includes satisfactory occupational health assessment and criminal record checks
- R1.3 ensure students are fully informed of the requirement to declare immediately any police charges, cautions, convictions or conditional discharges, or determinations that their fitness to practise is impaired made by other regulators, professional bodies and educational establishments, and ensure that any declarations are dealt with promptly, fairly and lawfully
- R1.4 ensure the registered nurse responsible for directing the educational programme or their designated registered nurse substitute are able to provide supporting declarations of health and character for students who have completed a pre-registration nursing programme
- R1.5 permit recognition of prior learning that is capable of being mapped to the Standards of proficiency for registered nurses and programme outcomes, up to a maximum of 50 percent of the programme

R1.6 for NMC registered nurses permit recognition of prior learning that is capable
of being mapped to the Standards of proficiency for registered nurses and
programme outcomes that may be more than 50 percent of the programme

R1.7 support students throughout the programme in continuously developing their abilities in numeracy, literacy, digital and technological literacy to meet programme outcomes, and

<u>Standards framework for nursing and midwifery education</u> specifically R2.6, R2.7, R2.8, R2.9, R2.11

Proposed transfer of current students to the programme under review Demonstrate a robust process to transfer current students onto the proposed programme to ensure programme learning outcomes and proficiencies meet the <u>Standards for pre-registration nursing programmes</u> (NMC 2018, updated 2023).

Proposed transfer of current students to the <u>Standards for student</u> <u>supervision and assessment</u> (NMC 2018, updated 2023).

Demonstrate a robust process to transfer current students onto the <u>Standards for student supervision and assessment</u> (NMC 2018, updated 2023).

#### Findings against the standard and requirements

#### **Evidence provides assurance that the following QA approval criteria are met:**

•	Evidence that selection processes ensure entrants onto the programme are
	suitable for the intended field of nursing practice and demonstrate values
	and have capability to learn behaviours in accordance with the Code.
	Evidence of people who use services and practitioners involvement in
	selection processes. (R1.1.1, R1.1.2, R1.1.3)

• Evidence of selection processes, including statements on digital literacy, literacy, numeracy, values-based selection criteria, educational entry standard required, and progression and assessment strategy, English language proficiency criteria specified in recruitment processes (R1.1.4 − R1.1.7).

YES ☑ NO ☐

Ensure students' health and character are sufficient to enable safe and
effective practice on entering the programme, throughout the programme
and when submitting the supporting declaration of health and character in
line with the NMC's health and character decision-making guidance. This
includes satisfactory occupational health assessment and criminal record
checks. Fitness for practice processes evidenced and information given to
applicants and students are detailed (R1.2)

#### Standard 2: Curriculum

### Approved education institutions, together with practice learning partners, must:

- R2.1 ensure that programmes comply with the NMC *Standards framework for nursing and midwifery education*
- R2.2 comply with the NMC Standards for student supervision and assessment
- R2.3 ensure that programme learning outcomes reflect the *Standards of proficiency for registered nurses* and each of the four fields of nursing practice: adult, mental health, learning disabilities and children's nursing
- R2.4 design and deliver a programme that supports students and provides exposure across all four fields of nursing practice: adult, mental health, learning disabilities and children's nursing
- R2.5 state routes within their pre-registration nursing programme that allows students to enter the register in one or more of the specific fields of nursing practice: adult, mental health, learning disabilities or children's nursing
- R2.6 set out the general and professional content necessary to meet the Standards of proficiency for registered nurses and programme outcomes
- R2.7 set out the content necessary to meet the programme outcomes for each field of nursing practice: adult, mental health, learning disabilities and children's nursing
- R2.8 ensure that field specific content in relation to the law, safeguarding, consent, pharmacology and medicines administration and optimisation is included for entry to the register in one or more fields of nursing practice
- R2.9 ensure the curriculum provides an equal balance of 50 percent theory and 50 percent practice learning using a range of learning and teaching strategies
- R 2.10 ensure technology and simulation opportunities are used effectively and proportionately across the curriculum to support supervision, learning and assessment
- R2.11 ensure that programmes delivered in Wales comply with legislation which supports use of the Welsh language
- R2.12 ensure that all pre-registration nursing programmes meet the equivalent of minimum length of three (academic) years for full time programmes, which consist of a minimum of 4,600 hours
- R2.13 ensure programmes leading to registration in two fields of nursing practice are of suitable length to ensure proficiency in both fields of nursing, and
- R2.14 ensure programmes leading to nursing registration and registration in another profession, are of suitable length and nursing proficiencies and outcomes are achieved in a nursing context.

Standards framework for nursing and midwifery education, specifically R1.9, R1.13; R2.2, R2.15, R2.17, R2.19, R2.20, R3.1, R3.2, R3.4, R3.9, R3.10, R3.15, R3.16; R5.1 - R5.16.

Standards for student supervision and assessment, specifically R1.2, R1.3, R1.7, R1.10, R1.11

	T 🖂	NOT MET $\square$
R2.4 is met. Module descriptors detail how students are sulearning across the four fields of nursing. Documentary evistudents tell us that they're supported in theory and practic opportunities related to the four fields of nursing. The programme team and the four granded collaboratively by the programme team and the four fields in spoke places.	dence control de	onfirms and erience learning eam describe This process is

students tell us that they're supported in theory and practice to experience learning opportunities related to the four fields of nursing. The programme team describe how students gain experience of other fields in spoke placements. This process is managed collaboratively by the programme team and the NES practice learning teams. There's evidence of agreed collaborative working with for example learning disabilities teams in partnership with PLPs and AEIs across Scotland. These opportunities ensure that students experience and are supported to learn about caring for people with learning disabilities in adult settings. The curriculum design, inter-professional learning and active learning communities support theory and practice learning across the lifespan and the four fields of nursing practice. Cross field learning is further supported by programme team members who have a range

of clinical backgrounds and who are registered mental health nurses, children's nurses, learning disabilities nurses and specialist community public health nurses.

nurses, learning disabilities nurses and specialist community public health nurses.		
<ul> <li>Evidence that programme structure/design/delivery will illustrate specific fields of practice that allows students to enter the register in one or more specific fields of nursing practice. Evidence of field specific learning outcomes and content in the module descriptors (R2.5)</li> </ul>		
MET ⊠ NOT MET □		
R2.5 is met. Unchanged through this modification.		
Evidence provides assurance that the following QA approval criteria are met:		
<ul> <li>There is evidence that mapping has been undertaken to show how the general and professional content meets NMC requirements of the Standards of proficiency for registered nurses and programme outcomes (R2.6)</li> </ul>		
YES NO		
There is evidence that mapping has been undertaken to set out the content necessary to meet the programme outcomes for each field of nursing practice: adult, mental health, learning disabilities and children's nursing (R2.7)		
YES NO		
Provide an <u>evaluative summary</u> from your documentary analysis and evidence AND discussion at the approval visit to demonstrate if assurance is provided that the QA approval criteria below is met or not met.		
<ul> <li>There is evidence that mapping has been undertaken to ensure that field specific content in relation to the law, safeguarding, consent, pharmacology and medicines administration and optimisation is included for entry to the register in one or more fields of nursing practice (R2.8)</li> </ul>		
MET ⊠ NOT MET □		
R2.8 is met. Documentary evidence confirms that the programme is mapped to field specific content in relation to the law, safeguarding, consent, pharmacology and medicines administration and optimisation. This is demonstrated across the module content.		
<ul> <li>The programme structure demonstrates an equal balance of 50 percent theory and 50 percent practice learning. This is detailed in the designated hours in the module descriptors and practice learning allocations. A range of learning and teaching strategies are detailed in the programme</li> </ul>		

specification, programme handbook and module descriptors with theory / practice balance detailed at each part of the programme and at end point. There are appropriate module aims, descriptors and outcomes specified. There is a practice allocation model for the delivery of the programme that clearly demonstrates the achievement of designated hours for the programme detailed. (R2.9)

	clearly demonstrates the achievement of desi programme detailed. (R2.9)	gnated hours	s for the	
	programme detailed. (1(2.9)	$MET \boxtimes$	NOT M	IET 🗌
R2.9 is met. Documentary evidence detailed in the module descriptors and programme specifications confirm that the programme structure continues to provide an equal balance of 50 percent theory and 50 percent practice learning. There are appropriate programme aims, learning outcomes and module content to meet the programme outcomes. There's a range of effective teaching and learning strategies including blended learning approaches, practical work, group work, lectures and active learning communities. Active learning communities are a key component of the programme. They provide opportunities for students to develop and support learning and understand how this applies in challenging practice clinical settings. The strategy enables students to reflect and consolidate theory and how this applies to the practice learning experiences that are assessed in the Scottish PAD. Blended learning approaches are used for directed learning in physiology, using recorded lectures, online activities and simulated theory learning. Students' understanding and application of physiology are assessed using multiple choice and integrated objective structured clinical assessments. The strategies and range of assessments across the programme enable students to demonstrate and develop their learning to support progression towards achievement of the programme outcomes.

Standard 3: Practice learning			

Approved education institutions, together with practice learning partners, must:

- R3.1 provide practice learning opportunities that allow students to develop and meet the *Standards of proficiency for registered nurses* to deliver safe and effective care to a diverse range of people, across the four fields of nursing practice: adult, mental health, learning disabilities and children's nursing
- R3.2 ensure that students experience the variety of practice expected of registered nurses to meet the holistic needs of people of all ages
- R3.3 provide practice learning opportunities that allow students to meet the communication and relationship management skills and nursing procedures, as set out in *Standards of proficiency for registered nurses*, within their selected fields of nursing practice: adult, mental health, learning disabilities and children's nursing
- R3.4 provide no less than 2300 practice learning hours, of which a maximum of 600 hours can be in simulated practice learning
- R3.5 take account of students' individual needs and personal circumstances when allocating their practice learning including making reasonable adjustments for students with disabilities
- R3.6 ensure students experience the range of hours expected of registered nurses, and
- R3.7 ensure that students are supernumerary.

Standards framework for nursing and midwifery education, specifically R1.1, R1.3, R1.5; R2.10, R2.15; R3.3, R3.5, R 3.7, R3.16; R5.1, R5.7, R5.10, R5.12

#### Standard 4: Supervision and assessment

Approved education institutions, together with practice learning partners, must:

- R4.1 ensure that support, supervision, learning and assessment provided complies with the NMC *Standards framework for nursing and midwifery education*
- R4.2 ensure that support, supervision, learning and assessment provided complies with the NMC *Standards for student supervision and assessment*
- R4.3 ensure they inform the NMC of the name of the registered nurse responsible for directing the education programme
- R4.4 provide students with constructive feedback throughout the programme to support their development
- R4.5 ensure throughout the programme that students meet the *Standards of proficiency for registered nurses* and programme outcomes for their fields of nursing practice: adult, mental health, learning disabilities and children's nursing
- R4.6 ensure that all programmes include a health numeracy assessment related to nursing proficiencies and calculation of medicines which must be passed with a score of 100%
- R4.7 ensure that students meet all communication and relationship management skills and nursing procedures within their fields of nursing practice: adult, mental health, learning disabilities and children's nursing
- R4.8 assess students to confirm proficiency in preparation for professional practice as a registered nurse
- R4.9 ensure that there is equal weighting in the assessment of theory and practice
- R4.10 ensure that all proficiencies are recorded in an ongoing record of achievement which must demonstrate the achievement of proficiencies and skills set out in *Standards of proficiency for registered nurses*.

Standards framework for nursing and midwifery education, specifically: R2.12; R3.5, R3.6, R 3.8, R3.11, R3.13, R3.14, R3.17; R4.2, R4.3, R4.4, R4.5, R4.6, R4.8, R4.11; R5.9
